## Contact agent for more information

Discovery Drive offers 11 generous sized lots ranging from 3005 m<sup>2</sup> to 6894 m<sup>2</sup> giving you the space to build the home of your dreams, put in a pool, grow vegetable gardens and give the kids plenty of room to explore. The estate's master plan has included thoughtful caveats to protect both the old growth forest remnants and areas of regenerating rainforest with part of each block also designated as permanent native vegetation zones. This means the glorious view that you can have from the back veranda can never be lost, and it will only get better with time. You will also be the envy of visiting family and friends when they see the kind of nature walks you can take right in your very own neighbourhood. Each site's building envelope gives you the ability to design a home that meets your needs now or has flexibility for future goals. This might include pavilion style dwellings with room for guests or even a bed and breakfast business. **DO NOT DELAY.** Only 11 premium blocks available so register your interest today to secure your little slice of heaven. Contact the agent for more information and survey plans.
