With half an acre on title and versatile 'township' zoning this property offers plenty of possibilities....subject to council approval of course. Build a castle or a modest home for your family? No matter what your dream is, make sure you include big North facing windows looking out across the creek to the neighboring farmland and rolling hills. There's plenty of room for a big shed too...Lake Eildon is only a few minutes away so you might need a boat, and of course motorbikes are essential with all the tracks in the nearby State Forest. Young children will love the local playground and older children can catch the school bus into Mansfield. It's an easy 10 minute drive to all the great shops, dining and other amenities on offer in this booming regional town.
