Hi and thanks for stopping for a look, Kangaroo campground is a great name for this land as the couple of times I was there - there were dozens of kangaroo's camping in the trees. On the roughly 400 acres - there's around half which is fairly timbered with mallee trees - this is where the kangaroos live - there's all kinds of other wildlife - such as wombats and emus + a huge number of birds. If you're looking for a property to camp and maybe run a few sheep - get in touch by completing your details on this web page - I'll be getting some more photo's soon. Regards, Nigel Christie Urban & Rural Partners.
