Near the end of a quiet No Through Road and with panoramic views from it's elevated location, this renovated classic '60's brick veneer home makes the most of its location. Situated on 69 acres (approx) of highly productive hill country, with around half planted with native trees and half cleared pasture. A 7m x 14m high clearance shed provides plenty of parking/storage/workshop space. It has a concrete floor and drive through capacity, making it easy for parking horse floats, caravans or trailers. There's also an old unused dairy for extra storage. With a new kitchen, bathroom and floor coverings, this home is ready to welcome it's new owners. 3 bedrooms all with robes, kitchen with dishwasher and 900mm stove, lounge with wood fired heater and r/c air con to keep things comfortable all year round. The large north facing timber deck opens off the kitchen/dining area and provides the perfect place to relax, soak up the serenity and take in the views. The land is ideal for grazing cattle, sheep or horses, and with it's rich soils will suit any other agricultural purpose. A spectacular lifestyle property that truly embraces the best of country living.
