Charles Bailey

Style and light with a chic architectural edge

"As soon as you step into this creative living space, you'll feel the cool inner urban vibe," says local inner west resident and real estate specialist Charles Bailey. "It makes an instant impact with its streamlined designer feel and fresh bright interiors" he adds. "What you're looking at here is a modern, high-calibre residence with some serious architectural smarts, while the natural light is excellent, and the layout is perfect for easy in/outdoor entertaining. The location is premium, too. All the hard work has been done. It's ready for you to move in and start enjoying, especially with its great position quietly tucked away just around the corner from all the dining and entertainment options along King Street."

- Polished concrete flooring, recycled brick walls and high ceilings
- Light filled open living space that integrates with the outdoors
- Large sliding glass panels that create a seamless in/outdoor flow
- Landscaped court garden and alfresco patio with rain sensor Vergola
- Contemporary open integrated kitchen with great storage and quality finishes
- Three bedrooms include a king sized main with extensive storage
- Upper-level retreat/third bedroom with built in daybed and desk
- Modern master bathroom, internal laundry and downstairs second WC
- Secure parking from the rear lane, air conditioning throughout and ceiling fans
- A couple of blocks back from Camperdown Memorial Rest Park
- Short stroll to Australia Street new restaurant hub
