Upgrade Your Future in Cable Beach

Situated on a corner strata block, this stunning two-storey home has incredible views across the dunes to the famous Cable Beach sunsets. The upper level opens up with grandeur to your private balcony via wide stacker doors, ensuring sublime vistas every morning. Tiled floors on both levels are easy maintenance and look stunning throughout this quality build.

Adding to the luxury, be spoiled with a walk-in robe tucked away behind the spacious ensuite. Full height tiling allows for easy cleaning and a sleek aesthetic.

The other two bedrooms have built-in robes, split aircons and dark roman blinds, which are featured throughout the entire home.

On the ground floor, the layout is smart and efficient, with plenty of windows to let the light in, and modern quality window furnishings to keep the sun out when you want to wind down. A partition wall politely separates the living space from the kitchen, and what a space this is!! Significant island bench with central double sink stainless steel cooking appliances, soft closing drawers and doors, and more than enough storage.

Whilst your upper level presents with stunning first floor views, the ground floor is in a league of its own! The rear decked is matched with a timber lined ceiling, accompanied by downlights and ceiling fans. This is one of many outdoor seating options, adding to the inviting front deck and the balcony above the tree tops. The rest of the yard is taken up with a stunning lap pool - a shared feature sprawling across the entire complex and surrounded by gorgeous tropical landscaping, stacked stone waterfall and mandi shower too! Entertaining here is next level luxe!

An added bonus with this apartment is the double garage with storeroom which makes for the perfect lock & leave.

With a government lease in place until October (with a two-year option to extend) at \$1000 per week, this property is fitting for professional tenants. A savvy investment in the elite Six Seasons Estate.
