For Sale Now or Forthcoming Auctions

Ideally located townhouse with easy access to Springvale is a great first home, investment, or a home for those seeking to downsize. Ideal because it has three good sized bedrooms, two bathrooms upstairs and a third bathroom downstairs. The master bedroom features a walk-in robe and ensuite.

Upon entering the home there is a feeling of space with a front living room for casual entertaining or watching TV or accessing the courtyard through a sliding glass door. Beyond the stairs is the kitchen behind the island bench/breakfast bar with a family room on one side and a dining room on the other. Here you'll find the laundry neatly concealed behind double cupboard doors and behind that the third bathroom and guests powder room.

Internal access to the single garage provides the convenience of unloading the car after school or shopping on those hot or wet days. Space in front of the garage is adequate for an additional vehicle.
