\$895,000 - \$970,000

Defined by a light-filled architectural design and accompanied by an impressive catalogue of inclusions, this superb contemporary residence conveys quality in all its detail – creating an enticing equation. Distinctive lines and desirable tones complement the timeless façade that precedes expansive living and meals areas including an impressive kitchen that features stone benchtops, extra storage, and stainless-steel appliances while the seamless flow reveals a substantial low-maintenance, landscaped courtyard for outdoor entertaining. Three bedrooms and two fully tiled bathrooms, including a main bedroom with both walk-in and built-in robes and deluxe ensuite, illustrate the upstairs allure of a design further distinguished by efficient reverse cycle heating/cooling units in each room and a conveniently positioned study zone upstairs. A water tank, secure garage and off-street parking complete a compelling picture merely moments from Cherry Lake Reserve, Altona Early Years Hub, Altona College campus, Harrington Square, and the Westona Train Station.
