\$1,150,000 - \$1,250,000

Freshly finished and completely in keeping with current day trends, this sophisticated residence is certain to remain on point and in demand far into the future. A floor-plan measuring 250-260m² or 26 squares approximately ensures an abundance of bright living space and the family friendly provision of four bedroom, three bathroom accommodation in a dual level design of exceptional style. Living and dining areas created to catch the light from the north-facing backdrop flow to an elegant deck and garden while an open-plan kitchen with a walk-in pantry conveys flawless freshness. The flexibility of a downstairs bedroom and bathroom complements the three bedrooms and two further bathrooms, including a luxurious master suite, that share the upstairs level with a generous central retreat. Sub-floor heating, split system cooling, ample storage and a secure garage add to the allure of this beautiful new address, just a short drive from Highpoint Shopping Centre, close to Scovell Reserve and public transport routes.
