Like new, and what a view!

Highset with views to the lake and ocean to impress - this as new home is move in ready.

Featuring a stunning raked ceiling, the north facing tiled alfresco is the perfect year round entertaining hub, with skylights, downlights and plenty of space. Exceptional views sweeping from the escarpment in the northwest, across the lake though to Windang Island and the ocean to the east greet you with an ever changing backdrop. Step through into the open plan lounge dining area, where easy care floating flooring under high raked ceilings makes a relaxed, comfortable elevated living space. Abundant natural light combined with reverse cycle air conditioning and a modern white colour scheme ensure you have all you need in a living area. The kitchen features a 40mm waterfall breakfast bar plus storage galore, and ensures you're never far from the action.

Descend the stairs noting the stylish iron balustrade to the bedroom wing, where both bedrooms have high ceilings and large built in wardrobes. The bathroom has floor to ceiling tiling and a real feel of luxury in the details. The nifty study nook downstairs provides the perfect work from home "zoom room" - as working from the balcony with that view may see the boss think you're on holiday!

Topped off by a remote garage with extra parking, 2/14 Beaton Street packs a lot of style into a great place! Perfect for modern living, this smart and stylish home is ready to move in, or secure a place for your future. Contact us today!

Space and style with views for miles.
