Resort Lifestyle Living Perfect Location for Family

This townhouse is a place you can relax and call home. If you live a busy life then you need to escape the hustle and bustle and take time out in beautiful surroundings. On the gated complex there is a garden, large pool, gym and undercover BBQ area.

After passing through the security gate and cameras, you can park your car either in the garage, carport or driveway. You can then either stay indoors where there is a feeling of spaciousness and natural light from the large glass sliding doors and windows, spend time in the fenced backyard or take a stroll over to the garden and pool area and unwind. The Harvard Mews complex is located near all of the practical amenities, such as shops, schools, churches, swimming pools, medical centres, chemists, library, aquatic centre, park and recreation areas and main road connections. There are also many theme parks close by for family fun and entertainment. The Gold Coast region has many seaside attractions and continuing investment into the area is delivering new and exciting business, retail and transportation infrastructure. If you work from home this would keep you away from the office for sure!
