Type: Townhouse

Dean Stanley

Superb Style And Sublime Sights

A central lift, in addition to elegant staircases, links the luxurious levels of this brilliant home, one of The Bower Residences, renowned for its style, spaces and sights of the blue of the bay beyond the green expanses of Point Gellibrand Coastal Heritage Park. The flexibility of a ground floor lounge, office or fourth bedroom with its own bathroom creates a beautiful first impression that's immediately matched by three first floor bedrooms, each with a balcony aspect. Two additional bathrooms, including the main bedroom's ensuite add to the allure of the accommodation before the luxury ascends to top floor living and dining areas accompanied by superb terrace views and a sophisticated Smeg appointed kitchen. Heating/cooling, security, storage and a double garage -amongst many desirable design attributes - ensure enjoyment of a signature address where the water is a constant presence and Williamstown station and Nelson Place are within strolling distance.
