## **Luxury Embodied in Coveted Locale**

Graceful, refined and the height of contemporary luxury exhibiting hand selected finishes and superior materials, these exceptional new three bedroom plus studio residences will redefine their coveted locale. Designed by award winning CHT Architects to balance openness and privacy, sophistication and practicality, homes unfold across two and three storeys. Open plan interiors flaunt state-of-the-art kitchens starring Miele appliances, oversized islands and marble surfaces while living domains flow easily to entertainer's courtyards. Each abode incorporates three designer bathrooms, multiple study nooks and a garage accessing a rear laneway. Seconds to High Street, All Nations Park, trams, cafes and restaurants, and further distinguished by Northcote High zoning, the locale is fittingly desirable.
