Type: Townhouse

2BR with study Luxury Townhouse in a high end development in Castle Hill

Brand new townhouse and ready to move in!

Just 200 meters away from the Showgrounds Metro is this unique, architecturally designed development we call Chateau, which captures a rare mix of community and amenity.

The first development at the Hills to have Townhouses on the ground floor to the 3rd floor.

C115 is one of our 2 only townhouses with their own lock up garage. This features a massive open plan living on the ground floor, an expansive kitchen with a feature light over the kitchen bench, a chandelier over the dining looking up to a 6m ceiling. Enjoy the floor to ceiling windows opening your space outwards to your balconies on both floors. This is your haven.

At Chateau's communal rooftop, enjoy the most envied infinity pool with uninterrupted views, go workout at the gym or throw a barbecue for lunch, afterwards, maybe watch a movie at the open cinema or go down the Zen garden for a nice refreshing short stroll.

Chateau is a place to truly feel at home and find your place.
