## Stylish Modern Unit in George Town

This contemporary unit in the heart of George Town could be exactly what you're looking for. Nestled in a newly developed complex and just a short walk from the town center, it combines modern living with convenience.

This three-bedroom unit offers all the perks of contemporary living without the upkeep of a large garden. Inside, you'll find high-quality finishes throughout, including an open-plan kitchen and living area with a breakfast bar, dishwasher, and pantry. Each spacious bedroom has built-in robes, with the master boasting its own ensuite. Additionally, there's ample storage throughout the property, and a generous double-bay garage with internal access.

The outdoor space is equally impressive, with a private, fully fenced courtyard that includes established gardens, a garden shed, and a covered alfresco area perfect for entertaining.

George Town is well-equipped with amenities, including schools, a modern hospital, supermarkets, hardware stores, and recreational facilities like a swimming center and mountain bike trails. Plus, it's just minutes from the beach and about 35 minutes from Launceston.
