The complex was first established in the mid-70s and completely renovated in 2021 to include modern finishings throughout the oversize units, as well as the new centrepiece saltwater pool and landscaped garden surrounds. The apartment features two large bedrooms both fit with exterior windows, a deluxe stone bathroom with freestanding tub, open concept living/dining, and a stunning kitchen with flush cabinetry and quality appliances. The East facing balcony extends from the living space and offers glimpses of the ocean through lush foliage (great for additional privacy!). Additional bonus is the huge lock up garage with storage, with nearly direct access to the front door and interior lift.
