\$1,050 per week

HUMBLE EXTERIOR WITH SURPRISES INSIDE!! This 4 bedroom, 2 bathroom solid brick home all on a single level has more to offer than meets the eye! This large family sized home has had a modern renovation with state of the art finishes in every room! Entering into the first of two living areas, you will find floorboards covering a space flooded with natural light streaming in from the North facing windows. The spacious kitchen is adjacent and benefits from the same light, while overlooking the huge garden area. A second, even larger living space fitted with a split system air conditioning unit can be found beyond the kitchen, which is a perfect area to house the family TV and couches as well as any toys or appliances for children and teenagers without the room getting cluttered! The master bedroom can be found at the opposite end of the property and features a split system air conditioning unit, a generous sized walk in wardrobe and a fully tiled ensuite. Another 3 well sized bedrooms with built in robes are down the hall as is the central bathroom (with separate bath and shower). With ducted heating throughout, there is also a separate laundry, powder room and parking for 2-3 cars. Close to public transport, schools, parks and Hampton Street, an inspection is a must for this wonderful home.
