\$310,000 - \$340,000

A very rare central offering in an affordable price range is this circa 1940's art deco 2 bedroom duplex. There are plenty of options here for the investor or first home buyer wanting to get into the central property market. The property has several period features such as high ceilings, stone walls and ornate fireplace surround in the living room. The 2 bedrooms are quite spacious and there is a large living area in the middle of the property. At the rear is the family kitchen, dining and bathroom. Located close to schools, Botanic Gardens and a short walk will have you at convenient shopping and restaurants in the heart of town. So if you're keen on the central property market, now is the time to act!
