\$470,000 - \$510,000

A stand-out choice for starters, investors or empty-nesters in a quiet enclave on the close perimeter of Frankston's bustling CBD, this immaculately modernised townhouse pairs exciting affordability with genuine lifestyle ease in walking distance to restaurants, cafes, major shopping and the train station. Cradled within a quiet complex, the two-storey residence features a generously sized light-filled living area with plush charcoal carpeting and an electric heater boosted by split system heating and cooling. The interconnecting kitchen is sleek with plenty of storage and counterspace, a freestanding oven and chic woodgrain flooring, while the private north-facing patio all but doubles the dimensions of the internal living area to supply a great space for drinks with friends before strolling to dinner on Beach Street or one of Frankston's glut of eateries. On the upper level, the spacious master bedroom boasts a mirrored built-in robe and a balcony gazing out across the treetops of the neighbourhood and is serviced by a full bathroom with a shower, bathtub, vanity and a separate toilet. A second bedroom, additional toilet on the lower level, a single garage and shed are among the inclusions of this move-in-ready abode, which offers a very enticing entry point for new buyers or those building a folio in a location that ticks every box.*Please note: Photo ID is required for all inspections*
