Lifestyle, location and low maintenance living

Located among local schools and Hampton Park Shopping Centre, this attractive single-level home offers 3 good sized bedrooms, vaulted exposed-timber ceilings and a sunny North-facing alfresco flow.

The property offers outdoor entertaining on a grand scale. Gardens wrap around the property's exterior and connect with 2 separate patios. Between them is a gravel area with a firepit. The complex provides resort-style living with a communal hall and communal pool - perfect as the weather begins to warm up.

Three generously sized bedrooms with built in robes, a family bathroom, full-sized laundry and central kitchen complete the floor plan. Features include split-system heating and cooling, ceiling fans, a double garage, 18 solar panels and external awnings.

This pocket of Hampton Park is highly sought after and for good reason. Around the corner from local schools and sports fields, the property places Hampton Park Shopping Centre and River Gum Creek Reserve within walking distance of the door.

At a glance, features include:

- Elaborate outdoor entertaining
- Vaulted ceilings
- Good sized bedrooms
- 18 solar panels
- Communal hall and pool
