A HOME WITH A DIFFERENCE

Let your mind run wild with the possibilities that this property offers. Set in the heart of the main street the home was started to be built a little over a year ago but really only signed off this year so it's almost brand new. The home features a spacious open plan living- meals area, single bedroom with a split system A/C, a ensuite with a toilet shower and vanity. Outside there is a fantastic decked alfresco area which is partly enclosed with shade cloth. A double garage with power and concrete floor, twin auto doors and the laundry and a second toilet. There is a shaded grass area between the house and the sheds to escape the summer sun, a garden shed and enough room at the front to turn around a caravan or a boat. The property has vehicle access from the rear lane which is as big as most streets. Just to top it off there is a 10 panel solar system on the roof.

The home is connected to mains water, power and sewerage. It would make a great rental, holiday home, air BNB or just a small home for a single person or a couple.;
