CHEAP PROPERTIES DON'T LAST LONG ON THE MARKET

This former St Peters hall is set on 301m² of land right in the heart of town. Zoned township this weather board building covers most of the block but has no services connected. Power and water are out the front and Beulah doesn't have sewerage you would have to install a septic. It's been unused for a number of years and needs renovating but it's cheap, possibly the cheapest property with a building on it for sale in the State.

PLEASE NOTE; there is no bathroom in this property. It won't display on realestate.com.au without a bathroom.
